

Methylated Spirit Product Information Sheet

Description

Bartoline Methylated Spirit is traditionally used a fuel for alcohol burners and camping stoves. It can also be used for smear-free hard surface cleaning and other household duties such as stain removal, sticker adhesive remover, marker pen ink removal etc. This product is completely denatured alcohol and should not be confused with industrial denatured alcohol or trade specific denatured alcohol in accordance with The Denatured Alcohol Regulations 2013.

Directions

As a Fuel

Carefully pour contents into burner in accordance with manufacturer's instructions.

Cleaning

Firstly, test surfaces and material for colourfastness Pour a quantity of Methylated Spirit onto a damp cloth, then rub/wipe the surface until clean.

Health and Safety

See MSDS for full information.

DANGER

Highly Flammable liquid and vapour.

Technical Data

Measurement	Value	Test Method
Physical State	Liquid	Visual
Colour	Clear Purple	Visual
Density	0.800 – 0.820 @20°C	Densimeter
Alcohol content	92 – 96 % v/v	GC
Isopropanol content	2.7 – 3.7% v/v	GC
Methyl Ethyl Ketone content	2.7 – 3.7% v/v	GC
Miscibility with demineralised water	Complete
